Or maybe you just love the challenge of playing and competing against others in video games? If so, this is the camp for you! If you are a beginner or are more advanced, there is plenty for you to learn and do at this camp. Come learn the basics of coding or learn to create video game levels, characters, assign behaviors, and be the one who decided how to beat each level you create. By the time the week is over, you'll know how to create your own video games using a variety of programs. There is so much to learn, see and do.
